AGAVE NECTAR, SERRANO, WITH SIDE SHOT OF GRAND MARNIER 11

TEQUILA served with handmade sangrita

an agave-based spirit made primarily in the area surrounding the city of Tequila, 65 kilometers (40 mi) northwest of Guadalajara, and in the highlands (Los Altos) of the western Mexican state of Jalisco. The volcanic soil in the region surrounding Tequila is particularly well suited to the growing of the blue agave, and more than 300 million of the plants are harvested there each year.
